

OSIRIS-REx: SAMPLE RETURN FROM A PRIMITIVE NEAR-EARTH ASTEROID

Presented at the Lunar and Planetary Institute

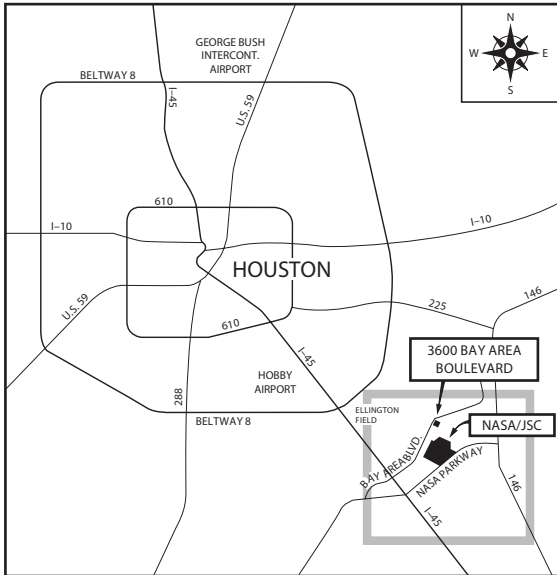

Dr. Scott Messenger, NASA Johnson Space Center
January 28, 2016, 7:30 P.M.

NASA's New Frontiers OSIRIS-REx mission will launch in 2016 and begin its journey to asteroid Bennu. After a period of intensive remote observations, a surface sample will be obtained and returned to Earth in 2023. For more information on the OSIRIS-REx mission, visit www.asteroidmission.org.

The Lunar and Planetary Institute is located in the Clear Lake region of Houston in the USRA building at 3600 Bay Area Boulevard, Houston, TX (entrance is on Middlebrook Drive)

For more information, please call 281-486-2163 or visit www.lpi.usra.edu/education/lectures
